

HOMEWORK after 7th lecture

- 1) Create new Java project.
- 2) Print procedure of finding area and volume of the square.

E.g.

$$a = 3$$

$$V = a * a * a$$

$$V = 3 * 3 * 3$$

$$V = 27$$

- 3) Print out name of the book and author.

E.g.

"Little women" - Louisa May Alcott

- 4) Declare and initialize string variable with some number and check with string method if it is digit, print out value of the method (use google for method ;).
- 5) Push homework to Git.
